The Documents & Media *Advantage*

UCSF Documents & Media offers the campus community a convenient and economic solution for its copiers, multifunction devices and printer needs.

Print Management Program advantages

Reduce or eliminate administrative time

- No need to generate a purchase order, since we'll be the ones leasing or purchasing the equipment.
- No need to review monthly bills from outside vendors for lease payments, maintenance, and supplies.
- No need to track individual impressions, since we'll be the ones responsible for tracking usage on a monthly basis. A recharge billing statement is provided monthly for each account. This statement includes a breakdown in usage by each fund/dpa and the amount recharged to that account.
- No need to order consumable supplies, like toner or solid ink. We provide all equipment supplies and can supply plain or 3 hole recycled paper.

Significantly reduce maintenance time

- Documents & Media becomes the key contact for all maintenance needs. No more rising service costs, burdensome third-party maintenance agreements, or tracking down of a technician for equipment repairs.
- Major parts are stored by Documents & Media at the Mission Center. This reduces the time needed to order parts and results in equipment potentially being serviced quicker.

Convenience and Ease of Use

- Individual access codes for each account (tied to the department fund/dpa) can be set up on each multifunction printer, allowing for universal access for all department users in the program.
- Equipment installed can be from the same manufacturer. This uniformity enables users the capability to easily operate each device, which in turn eliminates the frustration and downtime of having to readjust to different equipment.

Let us do the *copying for you*

Send your high-quantity print & copy jobs to us!

In addition to the UCSF Print Management Program, we can also do your digital printing & copying for you.

Our digital production facility at MCB features a Xerox 1000 Color Digital Press and several high-speed black & white copiers including Xerox 4127 models, and a Xerox DocuColor 560. For convenient color copies at Parnassus, we have also installed the latest Xerox WorkCentre model on the market at the DM Service Center in Millberry Union.

This equipment mix allows us to provide to the University fast and cost-effective color and black & white digital printing & copying. Our standard turnaround time for most copy jobs is 24 hours. If you need your project sooner, we offer rush and even super rush, while-you-wait service.

We carry a wide variety of paper stocks, including colored cover and text weights, textured papers, and tabs.

And print & copy are only part of the package. We offer a variety of binding options, including comb, tape, FastBack, and velo binding, as well as hard-cover book binding, complete with attractive foil-stamped spines and covers.

We can handle any type of hand-labor (folding, inserting, stuffing) required for your job.

Our digital production partner Xerox is firmly committed to environmental sustainability. We only use Xerox products that are Energy-Star® compliant. To learn more please visit www.xerox.com/gwa
