Re: Blocks 14, 18A and 18 Mission Bay 2<sup>nd</sup> Parcel Infrastructure and Childcare  
Relocation Projects

Dear Parents,

In December 2016 we updated you of plans at the Mission Bay Campus for underground utility infrastructure, roads, parking and shuttle lot pavements, and the relocation and expansion of the child care center at Mission Bay. We'd like to update you on work occurring on Blocks 14, 18A and 18, adjacent to the University Child Care Center at Mission Bay. Note: Existing Blocks 15 and 16 have been removed from the scope of work.

Over the next couple of weeks, the following work is planned in preparation for the Childcare Relocation project:

- **Wednesday 2/22/17:** Begin removal of geotech fabric and plastic soil covering at new childcare center site.
- **Thursday 2/23/17:** Start grading and scarifying of soil to help it dry out from rain.
- **Friday 2/24/17:** Continue site grading to prepare for soil remediation and mixing to occur on Saturday, 2/25/17.
- **Monday 2/27/17 thru Tues. 2/28/17:** Transport imported base rock to site and spread to grade.
- **Wednesday 3/1/17:** Provide temporary power to Build Group site trailer located behind the child care center.
- **Thursday 3/2/17:** Layout modular units and layout rough utilities in locations at job site.

As further construction plans are confirmed, we will continue to share information with you.

Development at Mission Bay is subject to, among other regulations, the Mission Bay Risk Management Plan (RMP). The oversight agency for the RMP is the Regional Water Quality Control Board (RWQCB). The RMP was approved by the California Environmental Protection Agency with input from the San Francisco Department of Public Health. The RMP and a FAQ document pertaining to the RMP along with associated reports, documents and an archive of project updates are readily accessible on our [construction information website](#) at:
