September 6, 2016

Dear Parents:

As we communicated in a parent letter distributed to you prior to the "Get Ready Days" break, UC San Francisco is taking voluntary, proactive steps to test the quality of drinking water on campus and to ensure that lead levels are not above what is considered actionable by the U. S. Environmental Protection Agency (EPA).

Last week during the break, all fixtures providing drinking water in UCSF childcare facilities were tested. **We are pleased to report that all fixtures in the Laurel Heights childcare facility tested below the EPA's action level.**

If you would like more information about UCSF's water quality testing program, helpful information is posted on the following website: <http://ehs.ucsf.edu/water-quality>. UCSF Environmental Health and Safety (EH&S) is in the process of updating the website with childcare results; these should be posted later this week.

Sincerely,

A handwritten signature in black ink, appearing to read 'Suzie Kirrane'.
